## Simply White

White - such a pure, fresh and calming color...Why would you not want to use it everywhere?!

Interesting minimalism is a hard thing to achieve these days. Here are some people who do this fantastically & beautifully...& (most importantly) at an affordable price!

**Paloma's Nest** is a fellow etsyian who's simple designs make bold statements; announcing babies, wedding anniversaries, and exclamations of love on doves and eggs.

**Branch Handmade** is a home and fashion accessories line that focuses on hand screen printed designs. If their stuff looks familiar its because their motorcycle throw pillow was featured on Friago last November!

Show your love of motorcycles, bikes, or anything nautical or antique around your home (or on your long legs!) in a lovely way....

**Sarah Seven** is inspired by Old Hollywood Glamour, pearls, recycled fabrics, romance, nature, & lace....Check out her beautiful designs:

## (Me) in a very small nutshell....

My passion is design. I love to create and see other peoples creations. I'm meticulous and full of energy about pretty much everything. I can't have one boring moment in my life or I go crazy. I love to talk and shop and look at beautiful things.

I am the owner of Friago.com, an online jewelry boutique, which features my own collections along with the work of other talented jewelry designers whose work I admire & appreciate.
